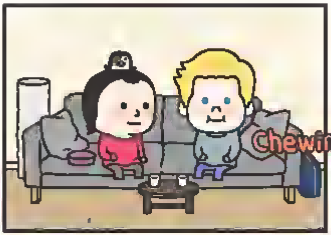
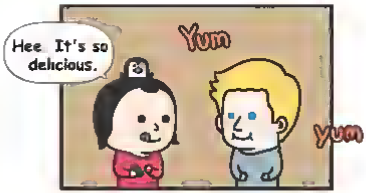
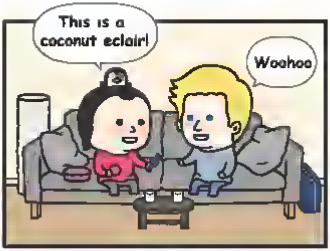
Here..
Yay~
Fudge!



Chewing



I didn't feel guilty about eating the chocolates because we didn't buy them.



And we shared them very well so everything was good but. . .

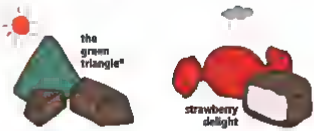
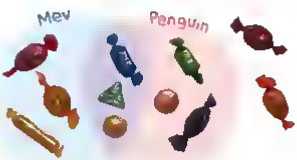
What's up?
Grin—

... one problem was that
there were some flavours that
we didn't like so much.





In the collection,
only one of us liked some of them,
both of us liked some of the others
and neither of us liked the rest.

.... exchanging the wrappers!!!

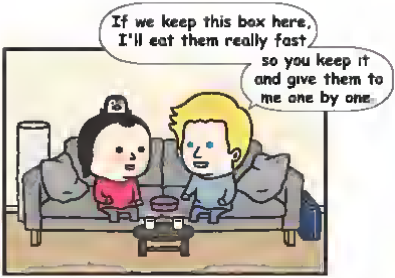
You've eaten more then 7 strawberry chocolates so far.

Let's Eat Chocolates

At the end of the year,
one of the presents that we always
get from a lot of people is s

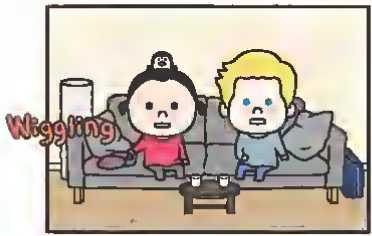
sweets like chocolates or biscuits.

That day,
we choose this chocolate collection
that has various flavours in it.



I put the chocolate box next to me
and gave them to Mev every so often.

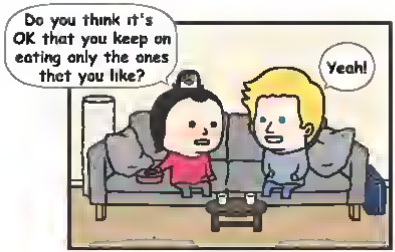
I think this man is the murderer!
Swinging



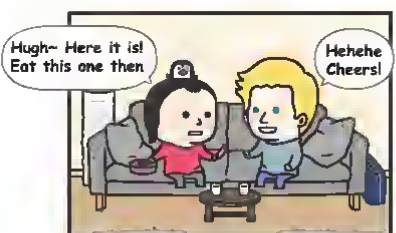
Wiggling

Last December,
we received lots of sweets
from people.

If we only ate all of the flavours that we liked,...



... then in the end,
the box would only have our
leost fevourite flavours in it



The best solution for o greedy man
who only tries to eat what he lihes is.....
